

Jordie Jordan starts every  
day by beelining to the  
nearest pizza restaurant.

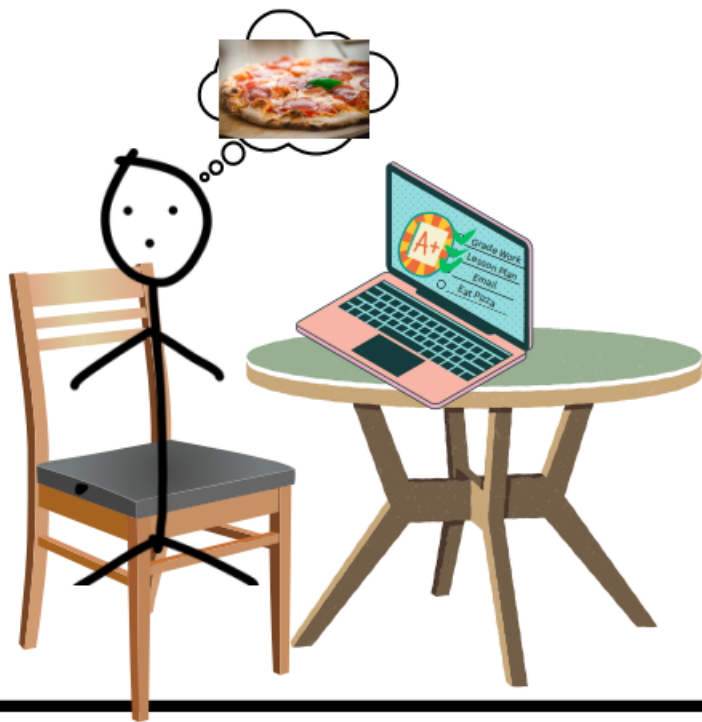

Just before Jordie can dig in  
to his delicious pie, he gets a  
notification from his phone...

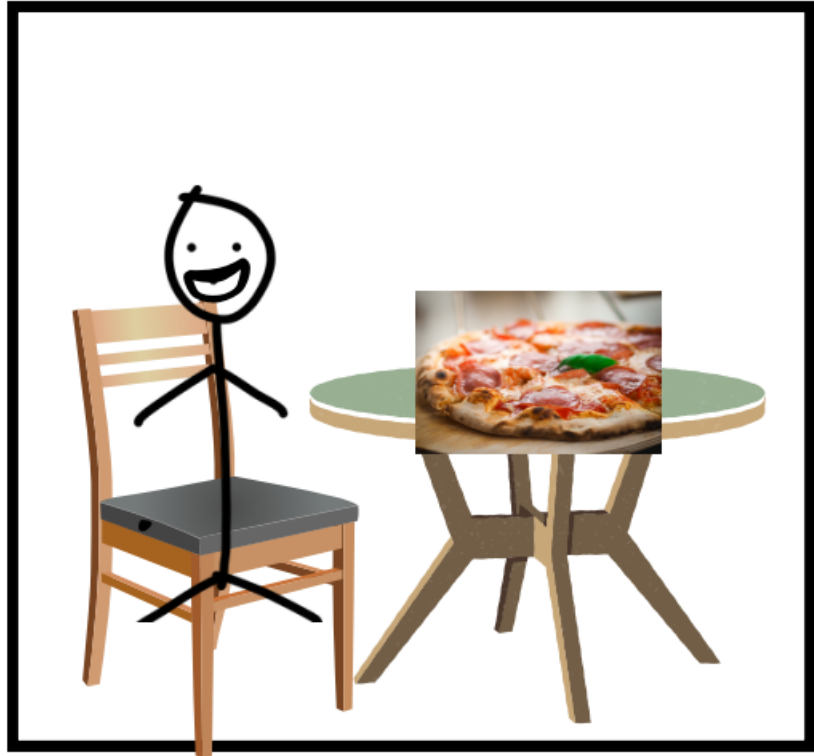

Jordie just received a  
notification that a student had  
submitted their work.

Jordie was also emailed this  
information and was able to  
instantly access the  
assignment through link in the  
email.

Jordie was then able to finish  
the rest of his grading for the  
morning in an efficient  
manner.

Now Jordie could finally  
return to his amazing Pizza  
breakfast.
